

Protek ISFE isolated Channel

Application:

1. Medical equipment maintenance
2. Industrial power source design
3. Motor power analysis
4. Floating ground differential signal analysis

Isolated Front End (ISFE)

Specifications

Input Voltage range	-600Vpk ~ +600Vpk
Attenuation ratio	200:1
Bandwidth	≤1MHz
Output voltage range	-3Vpk ~ +3Vpk
Working voltage	5V±5% , USB power
Working current	<200mA
Float voltage between channel and ground	1000Vrms
Float voltage between each channel	2000Vrms
Input Resistance	9 MΩ

“Protek”은 (주)지에스인스텍 계측기 브랜드 입니다.
